Introduction

GRID

The Basic Module is a 40 x 40 x 40 cm cube created using a 12 mm nylon frame (PA6) reinforced with fibreglass.

This cube is supplied with mounting holes and can be easily assembled in all dimensions with pinol screws. Once you have the Basic Module you can add sides, tops, base, cross braces, drawers, doors, etc.

GRID comes in two colours, black (RAL 9011) and white (RAL 9016).

GRID is designed by Peter J. Lassen.

The GRID product range

Besides the basic GRID module the range comprises accessories like side and top panels, base panels, seats as well as drawer and cupboard inserts. Elements that make it possible to tailor the furniture to precisely your needs.

Delivery and receipt of goods

Standard delivery time is 4-6 weeks.

GRID uses minimal packaging to ensure a quick and easy handling, and to avoid the unnecessary use and subsequent disposal of packaging.

It is up to the receiver to check the delivery right away for any faults or omissions. Damages and missing parts should be reported immediately. Any missing items or damages incurred during transport are only covered when marked on the delivery note.

Assembly

In general, GRID is supplied in loose components for own assembly. All the necessary screws and screw-bits, as well as the assembly instructions, are included in the shipment. Recommended work tool is a small power tool.

Should you wish to receive larger installations already preassembled, please contact us for a quote.

Guarantee

On standard products, GRID offers a two-year guarantee on defective or flawed goods. Natural wear-and-tear of outer surfaces and upholstery is not included in this guarantee.

Any complaints should be made immediately. Products can only be returned upon prior agreement.

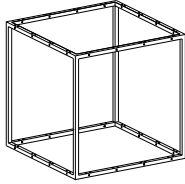

Disclaimer

GRID reserves the right to make regular changes and improvements to our product range.

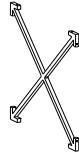

We take no responsibility for mistakes in printing.
